~~LEVEL 2~~ PRE-LEVEL 2

FS11. Canter along arena fence, use a Carrot Stick to make downward transitions: to the trot, walk and back-up in both directions

~~LEVEL 2~~ ~~PRE-LEVEL 2~~

Comments:

Try for more fluid transitions.

Try to canter smaller circles and stop each time the horse is calm. The canter is too impulsive

With snaffle bridle

~~LEVEL 2~~ ~~PRE-LEVEL 2~~

FS13. Trot a figure of 8 showing two changes of diagonal

Comments:

FS12. Softer. head too high, Needs to be a positive reffer. less opposition.

FS16. A slower canter.

FS17. Dont fall into the turn. The changes are good. Push them, Dont pull them. More seat, less pull on the reins.

Comments

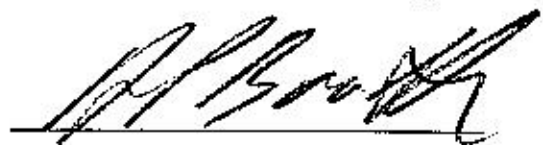

FS 16.

Just get a better level of impulsion in the canter. She is running more than cantering. Try circles, canter Yo Yo's, The clover leaf, until she can relax at the canter. Get a seat connection by doing lots of trot to walk transitions without pulling on the reins. Or at least until you don't need to pull on the reins.

Be careful not to lean into your turns.

Your riding is great.

Comments

Take and release a soft
feet at the walk and trot.

Start to look at the level 3
tasks. These will help your
weak points in level 2.

She could accept the bridle better
but the main problem is impulsion
which is causing you to pull on
the reins.

Overall a great job!
